PARTNERSHIP PROPOSAL 2025

Exploring the New Blue Ocean of Cybersecurity

Flyingnets SIEM+SOC Joint Operations Partnership

Together, We Secure the Digital Future

Flyingnets
Cybersecurity Excellence

EXECUTIVE OVERVIEW

Navigating the Presentation

FLYINGNETS

01 Market Insights

The Golden Age of Cybersecurity—explosive market growth, APAC emerging as the fastest-growing region, and escalating SOC service demand.

02 The In-House SOC Dilemma

High investment with limited returns—examining the three critical challenges: exorbitant costs, talent scarcity, and technical complexity.

03 Our SIEM+SOC Solution

AI-powered threat detection, automated response, and world-class security experts delivering 24/7 protection.

04 Partnership Ecosystem

Two flexible models—Product Licensing & OEM, and Joint Operations—plus comprehensive support systems.

05 Market Prospects

Capturing the hundred-billion opportunity—partner benefits, proven ROI, and the strategic advantage.

Join Us

Partner with Flyingnets to secure the digital future and unlock new revenue streams in the booming cybersecurity market.

The Golden Age of Cybersecurity

Explosive Growth Across Global and Regional Markets

Global Market Trajectory

Source: Gartner, IDC

2024 Market Size
$216.8B
↑ +12.3% YoY

2029 Projection
$416.2B
11.2% CAGR

Digital transformation and increasingly sophisticated cyber threats drive sustained market expansion. Organizations worldwide prioritize security investments, with cybersecurity becoming a board-level concern.

APAC: The New Blue Ocean

Fastest Growth

Regional CAGR **>15%**

ASEAN Market Projection
$5.51B → 2025 **$12.2B** 2030
17.24% CAGR

SOC Services: The Crown Jewel

With exponential growth in security alerts, SOC services now account for **40%+** of security budgets. Enterprises urgently need professional SOC services to manage alert fatigue and improve threat detection.

Sources: Gartner, IDC Reliable Industry Data

The In-House SOC Dilemma

High Investment, Limited Returns—Turning Pain Points into Partnership Opportunities

Challenge 1: Exorbitant Costs

Infrastructure

Massive upfront CAPEX for hardware, software licenses, high-bandwidth network connectivity.

Personnel

7x24 operations require 12-15 analysts, costing $1.5M+ annually.

Challenge 2: Talent Scarcity

Global Cybersecurity Talent Gap

4.8M

- **Recruitment Nightmare:** 6-12 months to fill SOC roles.
- **High Turnover:** Burnout from 24/7 shifts and alert fatigue.

Challenge 3: Technical Complexity

Rapid Evolution

Security tech becomes obsolete in 2-3 years, requiring continuous investment.

Alert Overload

10,000+ daily alerts with 90%+ false positives, wasting resources.

The Opportunity

These challenges create a massive market opportunity for specialized providers. By partnering with Flyingnets, enterprises can **reduce costs by 60%, deploy in 30 days, and access world-class expertise instantly.**

Core Solution

Who are Flyingnets?

Flyingnets provides end-to-end security operations services through the collaboration of SIEM platforms, AI Operators, and SOC teams

Market positioning and customer service

Leading provider of enterprise security solutions

More than 15 years of industry service experience

More than 130 employees have 7 offices around the world, located in Shanghai, Chengdu, Beijing, Guangzhou, Hong Kong, Singapore and Tokyo

Our features

1. We are a Microsoft global certified MSSP partner
2. We are an AWS certified global MSSP partner
3. We are a WA qualification partner certified by Alibaba Cloud
4. We are a Splunk Certified MSP Partner

We are committed to being your trusted partner in enterprise security

Future-proof your business with secure solutions and continued success

03 / OUR SOLUTION

The Flyingnets SIEM+SOC Platform

Intelligent, Automated, and Human-Expertise-Driven Security Operations

Flyingnets SIEM

The intelligent core for threat detection, powered by AI and machine learning.

- 1000+ Log Sources
- AI-Powered Analytics
- ATT&CK Coverage
- Smart Prioritization

AI Operator

Your 7x24 intelligent assistant for automated response and management.

- Automated Response
- Smart Ticketing
- Knowledge Learning
- Multi-language

7x24 SOC Team

Elite security experts ensuring continuous protection and rapid response.

- Top-Tier Experts
- Multi-language
- Ready Response
- Threat Hunting

The Flyingnets Advantage

Our integrated platform reduces alert noise by 90%, automates 70% of responses, and delivers **sub-second detection**. This isn't just a tool—it's a complete transformation of your security operations, backed by experts.

90%	70%	<1s
Noise Reduction	Automation Rate	Detection Time

Partnership Model 1: Product Licensing & OEM

Build Your Own Brand with Flyingnets' Proven Technology

What We Provide

Flyingnets SIEM Platform License

Full access to our SIEM platform, including AI analytics, use case library, and updates.

TM OEM/ODM Support

Full white-label capabilities to brand the solution as your own, including custom UI/UX.

Technical Support & Training

7x24 support, certification programs, and detailed documentation.

Your Benefits

Rapid Market Entry

Deploy in 30 days, not years. Launch immediately with proven, battle-tested technology.

Brand Ownership

Maintain brand consistency and customer relationships while leveraging our tech.

Reduced Costs & Risks

Save 70% on R&D and eliminate technical debt with predictable OPEX.

Ideal For

System integrators, MSPs, and telcos wanting to expand portfolio with minimal investment. Build your brand, leverage our innovation, and capture the $416B opportunity.

Deployment	R&D Cost Savings	Revenue Share
30 Days	70%	Up to 60%

Partnership Model 2: Joint Operations (SIEM+SOC)

Combine Your Resources with Our Expertise—Stronger Together

Partner Provides

Personnel

Local staff for a 24/7 SOC. We provide leader and senior analysts.

Facilities

Secure physical location for the SOC with necessary infrastructure.

Infrastructure

Servers, storage, and bandwidth to support the platform.

Flyingnets Provides

SIEM Platform & Tech

Full SIEM platform, continuous updates, and R&D investment.

Operational Framework

Complete SOC processes, playbooks, and quality standards.

Leadership & Training

Experienced SOC leader, comprehensive team training, and certifications.

Joint Operations: Stronger Together

Partners combine local presence with Flyingnets' technology and expertise to deliver enterprise-grade 7x24 security services. Share revenue, profits, and success.

7x24	50-70%	30 Days	Certified
Operations	Profit Margin	Go-to-Market	Quality

Comprehensive Partner Support System

Four Pillars for Guaranteed Success at Every Stage

Technical Support

Always-on technical expertise for seamless operations.

- **7x24 Support:** Critical SLA in <15 min.
- **Regular Updates:** New detection rules monthly.
- **Dedicated Engineer:** Your direct technical liaison.

Training Support

Comprehensive programs to build a world-class team.

- **SOC Analyst Bootcamp:** 4-week intensive.
- **Certification:** Flyingnets Certified Professional pathway.
- **Continuous Learning:** Monthly threat intel briefings.

Marketing Support

Joint activities to generate high-quality leads.

- **Co-branded Collateral:** Case studies, one-pagers, whitepapers.
- **Event Partnership:** Joint webinars, conference booths.
- **Digital Promotion:** Cross-promotion on websites and social media.

Sales Support

Tools and expertise to close deals faster.

- **Sales Toolkit:** ROI calculators, pitch decks, battle cards.
- **Pre-sales Support:** Expert assistance for demos and PoCs.
- **Deal Registration:** Protected margins up to 40%.

Your Success is Our Success

Our support system ensures partner success. From onboarding to ongoing optimization, we provide unmatched commitment to our partners' growth. Your success drives ours.

Capturing the Hundred-Billion Opportunity

Three Key Benefits of Partnering with Flyingnets

Benefit 1: Rapid Market Entry

Enter the high-growth cybersecurity market instantly with our proven technology.

Market Growth Rate
11.2%
CAGR 2024-2029

- **Instant Deployment:** Launch in 30 days, not years.

Benefit 2: Significant Cost Reduction

Drastically cut R&D and operational costs with our proven platform.

R&D Cost Savings
70%
Compared to In-house

- **Predictable OPEX:** No surprise costs, transparent margins.

Benefit 3: High-Value Relationships

Build long-term, recurring revenue relationships through continuous services.

Customer Retention
95%
Annual Contract Renewal

- **Recurring Revenue:** 80% margins on renewals.

Cybersecurity: A Recession-Resistant Investment

Cybersecurity is a non-discretionary, mission-critical investment. Demand grows with digital transformation and threats. Partnering provides **stable, predictable, high-margin revenue** for sustainable growth.

$416B	60-80%	3-5x	90%+	12 Months
2029 Market	Profit Margin	Revenue Multiple	Revenue Retention	To Break-even

Proven Success: Customer Case Studies

Real Results, Real ROI—The Power of Flyingnets Partnership

Case Study 1

Major Financial Institution

Customer Profile

- Top 10 bank, $500B+ assets
- 10,000+ employees
- Strict compliance requirements

Partnership Model

Joint Operations (SIEM+SOC). Flyingnets provided platform, leadership, and expertise.

Tangible Results

80%
Response Time Reduction

90%
False Positive Reduction

Case Study 2

Leading Technology Company

Customer Profile

- Global cloud services provider
- $2B+ annual revenue
- 5,000+ enterprise clients

Partnership Model

Product Licensing & OEM. White-labeled Flyingnets SIEM as their own branded solution.

Business Impact

6 Months
Time-to-Market

$50M
New Revenue Stream

Validated Business Model

These case studies prove our models deliver measurable ROI and strategic advantage. With 50+ partners, our models are battle-tested. Join us to write your success story.

05 / STRATEGIC ADVANTAGE

Why Flyingnets: Your Competitive Edge

Battle-Tested Technology, World-Class Expertise, Unmatched Partnership

Battle-Tested Technology

Our SIEM platform processes millions of events daily, refined by 5+ years of enterprise operations.

- ✓ **Massive Scale:** 100K+ EPS per deployment.
- ✓ **AI-Powered Precision:** 95% threat detection accuracy.
- ✓ **Zero-Downtime:** 99.99% uptime SLA guarantee.

World-Class Experts

Our team has decades of combined experience from top-tier firms and Fortune 500 companies.

- ✓ **Elite Credentials:** CISSP, CISM, SANS GIAC certified.
- ✓ **Deep Specialization:** Financial, tech, and critical infrastructure.
- ✓ **Continuous Learning:** Monthly training on emerging threats.

Flexible Models

Choose from OEM or Joint Operations to match your business needs.

- ✓ **White-Label Freedom:** Maintain 100% brand control.
- ✓ **Joint Success:** Share revenue, profits, and risks.
- ✓ **Seamless Integration:** Full API and SDK access.

APAC Market Access

We understand APAC's unique dynamics—fastest-growing, but under-served.

- ✓ **Local Presence:** Offices and teams across APAC.
- ✓ **Cultural Fluency:** Multi-language support (EN, CN, etc.).
- ✓ **Regulatory Compliance:** Deep expertise in local laws.

The Flyingnets Difference: Partnership, Not Just Technology

We offer true partnership for sustainable competitive advantage. Technology + Expertise + Partnership = **Your Success.**

5+ Years	100+	50+	12 Countries
